EXPERIENCE

Graphic Designer

DC&CO

AUG 2024 - PRESENT

- Drive brand awareness and elevate user engagement for 20+ corporate and startup clients in cyber security, MedTech, life science, and other various industries by delivering high-impact visual designs.
- Develop key marketing assets, including videos, SVG animations, and motion design collateral for advertising campaigns and social media reels, strengthening brand storytelling and engagement across platforms
- Redesign website architecture and user interfaces in Figma to elevate overall UX and UI, communicating the user journey through wireframes, flow diagrams, storyboards, mockups, and high-fidelity prototypes to ensure brand consistency across 30+ pages and deliver a cohesive, intuitive experience across desktop, tablet, and mobile.
- Develop engaging tradeshow booths and brand experiences by leveraging high-quality imagery, large-format printing, and diverse material to enhance brand recognition and customer engagement.
- Elevate complex concepts into impactful visuals by producing high-quality, story-driven illustrations focused on abstract representation.
- Adapt and apply brand identity systems using design thinking methodologies to lead user-centered product ideation and feature enhancements, resulting in cohesive, on-brand, and impactful user experiences.
- Strengthened team performance and creative output by actively leading creative direction and promoting brand unity to a collaborative feedback culture, fostering continuous design improvement.

Graphic Designer

GROWIN' ADVERTISING

JUNE 2021 - MAY 2025

- Expanded the reach of 25+ clients social media through data driven marketing strategies, achieving a monthly average of over 400,000 impressions with engaging paid graphics and short-form video content.
- Achieved a remarkable 28% month-over-month increase in digital ad conversion rates by conceptualizing and producing engaging, SEO-driven graphics, driving significant growth in customer acquisition and engagement.
- Elevated brand recognition and illustrated design principles, typography, and layout standards through the development of logos, brand campaigns, display ads, icons, and digital banners.
- Ensured visual excellence by meticulously retouching, editing, and color-correcting images, meeting and surpassing desired specifications.
- Oversaw the crafting of collateral materials and consistently delivered day-to-day design solutions, demonstrating a proactive and versatile approach.

Web Designer

TRAVEL TECH MANAGED IT SERVICES

OCT 2023 - OCT 2024

- Pioneer the growth of Travel Tech's web services division, focusing on consistent expansion and customer satisfaction.
- Lead end-to-end development and maintenance of SEO-driven marketing websites, upholding high design and product quality standards using WordPress, Webflow, and Divi.
- Leveraged CSS & HTML expertise to craft custom wireframes, style guides, and webpage layouts, enhancing user flow and optimizing overall user experience.
